## ANIMAL BITES

If possible to do so without endangering other people, the animal should be caught and kept until it is tested for rabies or other diseases. Call Humane Society.

1. Do not try to stop bleeding from non-major animal bites. Bleeding will clean out the wound.
2. Wash wound thoroughly with mild soapy solution.
3. Cover wound with sterile dressing.
4. Keep person calm and warm.
5. Call a doctor. Animal bites are dangerous and should be checked by a physician.

## BLEEDING

In severe cases it is essential to stop the bleeding first, then get medical assistance.

The 3 First Aid methods for stopping bleeding are:

### DIRECT PRESSURE PRESSURE POINTS TOURNIQUET

1. In the direct pressure method, pressure is applied directly on the wound itself; use a sterile cloth if possible. This method will usually control the flow of blood; always consider this method first. If severe bleeding continues, it will be necessary to use the pressure point or tourniquet method.
2. The pressure point method is used to stop arterial bleeding (blood bright red spurting) from arms or legs. In this method, pressure is applied to the artery supplying the blood. For bleeding from the arm the pressure point is mid-way between the armpit and elbow on the inner arm. For the leg the pressure point is just below the groin on the front inner half of the thigh. With severe arterial bleeding, it is important that you locate the pressure point within seconds. Therefore, practice locating the pressure points so that you will find them instantly in an emergency. If severe bleeding cannot be stopped quickly by direct pressure or the pressure point method, a tourniquet must be used.
3. The tourniquet method is used to stop the flow of blood to and from the limb by tying a band as close to the wound as possible between the wound and the heart. Improperly used, a tourniquet can cause loss of limb or aggravate shock. However, when severe bleeding from an arm or leg cannot be stopped within seconds by the preferred methods, a tourniquet must be used to save a life.

## BURNS

### 1st Degree Burn (Skin Red and Tender)

1. Flush with cold water.
2. Cover burn with gauze or dry sterile dressing.

## BURNS CONT

### 2nd Degree Burn (Skin Red, Tender, and Blistering)

1. Immerse in cold water (NOT ice water) for 1-2 hours.
2. Call a doctor.
3. Gently blot dry. Do not break blisters, use grease or antiseptic.
4. Cover with dry sterile dressing.

### 3rd Degree Burn (Skin Burned or Charred)

1. Call a doctor.
2. Do not remove adhered particle(s) of charred clothing.
3. Cover with thick sterile dressing, freshly ironed or laundered sheets or linen.
4. Elevate burned area.
5. Seek medical assistance immediately.

## CHOKING

People who choke on food usually cannot speak or breathe. If person is coughing, let him cough out object.

Do not slap someone on the back at first signs of choking. Only if a person cannot clear the airway must you help.

### BACK BLOWS

A rapid series of sharp blows delivered with the hand over the spine and between the shoulder blades. (Small child can be held upside down.)

### MANUAL THRUSTS

A series of thrusts to the upper abdomen or chest to force air from the lungs.

1. Stand behind the victim.
2. Reach around bear-hug style with your hand across the abdomen, between the navel and the rib cage.
3. Pull toward you in a quick upward thrust (repeat if necessary).

It might be necessary to remove the foreign object with your fingers. Be cautious not to push the object farther down the throat.

## DROWNING

If the person is unconscious, you must administer artificial respiration and call for immediate medical assistance.

1. Administer artificial respiration by mouth to mouth or by the back pressure arm lift method.
2. Turn victim's head to one side to prevent vomit from entering lungs.
3. Keep victim warm and comfortable.
4. Seek medical assistance immediately.

## FAINTING

Fainting is a partial or complete loss of consciousness due to temporary insufficiency of blood supply to the brain. Fainting might constitute a brief episode in the development of a serious medical problem; call your physician.

### SYMPTOMS

Complaints of weakness, dizziness, or spots before the eyes, pale or sweaty appearance.

1. Place victim on his back with head lower than his feet.
2. Loosen clothing and cover with blanket if necessary.

## FAINTING CONT

3. Use a cold compress on victim's face or ammonia inhalant to revive.
4. Have victim rest at least 15 minutes. Do not give liquids or food.

## FRACTURES & BROKEN BONES

**Warning** \* Persons with neck and back injuries should not be moved by anyone except trained medical personnel, except in life threatening situations. Request medical assistance immediately.

In the case of an open fracture, stop the bleeding first and cover the wound with a sterile dressing.

1. Allow victim to place break in comfortable position.
2. Apply splint to immobilize the limb.
3. Place victim on his back and cover with blanket if necessary.

## HEART ATTACKS

When the first signs of an attack appear, immediately call ambulance or get the victim to an emergency hospital. If this is not possible, call for medical assistance.

**Warning** \* Call a physician even if the victim thinks he will feel better in a few minutes.

### SYMPTOMS

Pain in the upper abdomen, chest, possibly extending into the arms or neck. Shortness of breath, nausea, vomiting, and sweating.

1. Place victim in comfortable reclining position.
2. Loosen clothing.
3. Keep victim calm and cover with blanket if necessary.
4. If victim stops breathing, apply artificial respiration.
5. If victim loses consciousness, his heart may have stopped...Apply CPR. To learn CPR (Cardiopulmonary resuscitation) call your local Heart Association or Red Cross.

## HEAT STROKE

Heat stroke is characterized by high body temperature, hot, flushed skin, rapid but weak pulse and possible unconsciousness.

Remove the victim from the source of heat immediately, into a cool area. Seek help at the nearest emergency room. While enroute to the emergency room, victim will benefit from being sponged on side of neck, armpits, sides of chest and on inner thighs with cool water.

Heat exhaustion, characterized by pale and clammy skin, nausea, headache and weakness, may be treated with sips of salt water. Bring patient to an emergency room.

Heat pumps are characterized by spasms in the legs and abdomen. Place patient in cool area and gently massage the affected areas. Take two salt tablets every 15 minutes, if available. If salt tablets are not available, mix 1/4 tsp. salt in one glass water and sip. Seek the advice of your family physician, or go directly to an emergency room.

## INSECT BITES & STINGS

Most insect bites are not serious unless there is an allergic reaction. If there is doubt about what kind of insect has bitten you, call a doctor. If possible, catch the insect in a bottle for identification.

1. Remove stinger if still in skin.
2. Apply ice to area of bite.
3. Apply a thick paste of baking soda and water to area of bite.

**BLACK WIDOW** and **BROWN RECLUSE** bites are rarely fatal to adults, but the victim should receive medical attention.

### SYMPTOMS

Victim may experience a swelling, redness and burning pain in the area, as well as stomach pain, severe headache, cramps, rash, or profuse sweating.

1. Treat as above.
2. Give aspirin for pain. Call a doctor.

## POISON IVY & OAK

Skin may become red and swollen, small blisters may appear on the skin, which may become large after several hours. Victim may have violent itching.

If victim develops a large rash, get medical help. Do not let him scratch.

1. Wash area thoroughly with soapy solution.
2. Swab with rubbing alcohol.
3. Apply calamine lotion. For large rash, bathe in solution of one cup baking soda in a bathtub of water.

## SHOCK

Shock is characterized by pale, cold skin, a rapid but weak pulse, nausea or severe thirst. In later stages, the victim becomes unresponsive and pupils dilated.

Give necessary first aid to eliminate the causes of shock, such as excessive bleeding or stoppage of breathing. Have victim lie flat and cover him with a light blanket only to maintain body heat. Check to ensure open airway, and if patient is vomiting, tilt head to side. For victims of head injuries, keep head higher than rest of body. Other shock victims benefit from having feet raised from 8 to 12 inches above the head.

Call for ambulance immediately.

## UNCONSCIOUSNESS

1. Apply artificial respiration if breathing has stopped.
2. Turn victim's head to one side if possible.
3. Place victim on his back with his head lower than his feet.
4. Cover with blanket if necessary.
5. Call a doctor.

# EMERGENCY ANTIDOTES

## IN CASE OF POISONING, KEEP CALM AND CALL:

**A Doctor, Poison Control Center Or Emergency Room At Once**

Then using the table below, give **FIRST AID** at once.

If no antidotes are available, give large amounts of water (Unless victim is unconscious). Keep patient warm and do not induce vomiting without specific instructions to do so! Do not cause vomiting in cases of Acid or Alkali poisoning. A sample of the substance ingested should be brought

to the hospital, in the container in which it was packaged. If possible, try to record the time of ingestion and the amount ingested. If the patient has vomited, save a sample of the vomited material.

## Act fast in a poison emergency!

**POISON:** Medicines, Headache tablets, Polishes, Paints, Cleaners, Thinners, Insecticides, Weed killers

- 1 CALL NEAREST POISON CONTROL CENTER**  
No. \_\_\_\_\_
- 2 If you can not get instructions quickly:  
CALL LOCAL AMBULANCE SERVICE or  
TAKE PATIENT TO NEAREST EMERGENCY ROOM**  
Hospital phone \_\_\_\_\_

### DON'T CAUSE VOMITING IF PATIENT:

- Is unconscious or in coma.
- Is having convulsions.
- Has swallowed a corrosive substance that burns mouth or throat (Toilet Bowl Cleaners, Lye, Ammonia, Bleach).
- Has swallowed a petroleum product (Kerosene, Lighter Fluid, Paint Thinner, Furniture Polish).

## REMEMBER

### PREVENTION IS THE BEST TREATMENT, HERE'S HOW:

- Keep all poisons in their own identifiable container.
- Never give or take medicine in the dark.
- Store all poisons and medicines high up and locked up.
- Check all medicines periodically and throw leftovers down the toilet.

## KEEP ALL MEDICATION AWAY FROM CHILDREN

## BE PREPARED TO SAVE A LIFE

Place nonbreathing victim on back, face up.

Clean out any foreign matter by turning victim's head to side, force mouth open and wipe out throat and mouth with finger or cloth.

### MOUTH TO MOUTH METHOD IN ADULTS:

Insert thumb of your left hand between victim's teeth. Hold the jaw upward so that the head is tilted backward. Close victim's nostrils with your right hand. Take a deep breath and place your mouth tightly over victim's mouth and your own thumb. Blow forcefully enough to make victim's chest rise. Repeat inflations every five seconds.

### MOUTH TO MOUTH METHOD IN CHILDREN:

(Or in adults with tight jaw.)

Grasp the angles of the child's jaw at the earlobes with both hands, and lift up forcibly so that the head is tilted backward. Push child's lower lip toward the chin with your thumbs. **NEVER LET THE CHIN SAG.** Take a breath and place your mouth tightly over child's mouth (For small child cover both mouth and nose). Blow in gently until his chest moves, then take your mouth off and let him exhale passively. Repeat inflations about one every three seconds. **FOR INFANTS USE PUFFS.**

For further **FIRST AID** INFORMATION AND TRAINING CONTACT YOUR LOCAL **American Red Cross.**

## Auto Trouble Shooting Guide

### ENGINE WILL NOT START STARTER WILL NOT OPERATE

**Battery weak or defective** - Check headlights; if dim, charge battery or jump start. If battery won't hold charge or tests bad, replace.

**Poor cable connections** - Check connections at battery, starter solenoid, ignition switch and ground. Clean and tighten battery terminal connections and apply coat of petroleum jelly to protect against future corrosion.

### STARTER SPINS BUT WILL NOT TURN OVER ENGINE

**Armature shaft dirty or corroded** - Clean shaft and lubricate with lithium grease.

**Starter drive clutch defective** - Check drive clutch, replace if necessary. Possibly replacing starter with new or rebuilt unit would be easier than the above.

### ENGINE TURNS OVER BUT WILL NOT START

**Engine not getting gas** - Out of gas? Check for fuel in tank. Check for broken or leaking fuel line. Possibly frozen fuel line, if winter.

**Broken fuel pump** - Replace

**Choke stuck open** - If automatic choke; adjust thermostatic coil. If manual; check for broken cable.

**No spark** - Check to make sure all spark plug wires are connected. Check inside of distributor for broken wires on points or points which do not open when engine turns over.

### ENGINE STARTS BUT STALLS

**Choke adjustment incorrect** - Adjust. Check for broken vacuum lines. Check for sticking or broken linkage. Realign or replace.

**Idle speed too fast or slow** - Adjust carburetor to specs.

**Fuel filter plugged** - Replace.

### ELECTRICAL SYSTEM

#### ALTERNATOR LIGHT STAYS ON WITH ENGINE RUNNING

**Loose or broken belt** - Tighten belt or replace.

**Alternator or generator not charging** - Have voltage regulator checked. If voltage regulator is okay, have alternator or generator checked; repair or replace.

#### CERTAIN ELECTRICAL SYSTEMS DO NOT WORK

**Blown fuse** - Replace blown fuse for system not working. Exam: Headlights out; replace headlight fuse. If fuses continue to blow, check for shorts in system; wires broken, cracked, insulation off, etc.

**Turn signals do not flash** - First check for burned out bulb or fuse. If okay, replace signal flasher.

### COOLING SYSTEM

#### ENGINE OVERHEATING

**Not enough coolant** - Add water and antifreeze mixture. Check for leaks.

**Fan belt too loose** - Tighten.

**Broken water pump** - Usually leaks & squeals when bad; replace.

**Loss of system pressure** - Check radiator cap spring tension; replace if bad. Check for leaks.

**Thermostat stuck closed** - Replace.

**Timing off** - Reset to specs.

#### COOLANT LOSS

**Radiator leaking** - Take to radiator shop or solder leaking spot.

**Hoses leaking** - Check connections; tighten if necessary. Replace leaking hoses.

**Water pump leaking** - Replace.

Check your automobile's manual for location of part(s) or system(s) which are giving trouble and for specifications.

### BRAKE SYSTEM

#### SCRATCHING NOISE

**Worn out brake pads or pucks** - Replace brake pads and/or pucks and have brake drum or rotor machined if necessary to remove scratches.

#### SQUEALING NOISE

**Brake drums or rotors glazed** - Have machined.

#### CAR PULLS TO ONE SIDE

**One wheel with bad brakes** - Check for leaking brake line, plugged line, leaking wheel cylinder or stuck wheel cylinder. Replace.

#### REAR WHEELS LOCKED

**Emergency brake stuck on** - Release. Possibly frozen, if winter.

#### BRAKE PEDAL HOPS UP & DOWN

**Brake drum out of round or rotor warped** - Have machined.

#### LOW BRAKE PEDAL

**Low & hard** - Low brake fluid; top up. Brake linings worn out; replace.

**Low & soft** - Air in brake lines; bleed.

### TIRES

#### UNEVEN TIRE WEAR

**Worn outer edges** - Air pressure is too low; add air.

**Worn middle** - Air pressure is too high; take air out.

**Uneven wear across tread** - Out of alignment, worn out shock absorbers or worn suspension parts; align and/or replace worn shocks or suspension parts.

#### TIRE VIBRATION

**Out of balance** - Rebalance tires.

**Suspension problem** - Check alignment; check front wheel bearings for enough grease; proper tightness or wear; or check for worn or broken suspension parts.

### SHOCK ABSORBERS

#### RIDE BOUNCY & UNCONTROLLABLE

**Shocks are worn out** - Replace.

#### TIRE WEAR UNEVEN

**Shocks are worn out** - Replace.

## PUFFERBILLY DAYS

Written by Mary Maybee

Two years ago a popular newspaper columnist (an Iowa Boy) chose Boone Pufferbilly Days as one of the ten worst-named festivals in Iowa. The people of Boone were undaunted by this slur against them. Being very proud of their railroad origin and enthusiastic about their festival, they worked hard and in 1982 Boone Pufferbilly Days was selected as one of the ten top festivals in Iowa.

An estimated crowd of 30,000 attended last year's celebration and over that number is expected to join Boone's 13,000 residents this year.

Many months of planning by a nucleus of approximately 25 committee chairmen and the efforts of several hundred eager volunteers during the three day celebration make Pufferbilly Days a weekend to be remembered. The event is coordinated by A.J. "Toche" Terrones, Executive Vice President of the Boone Area Chamber of Commerce, the sponsoring organization.

In 1977, the Boone Chamber of Commerce Retail Committee decided to promote retail sales with a weekend sidewalk sale and street dance in the downtown area. The name Pufferbilly Days was chosen to give a theme to the event and to recognize the town's founding by the railroad. The first event was chaired by Dale Points. The idea for the event was originated by June Berg and Holly Larson, then president of the Boone Chamber.

In 1978, under the direction of Charles Klinkfus, the parade was expanded in an effort to get more people involved. At this time, Pufferbilly Days was held in late September.

In 1979 George Maybee, Assistant Vice-President and Division Manager-Iowa Division of the Chicago & North Western Railroad, arranged for excursion rides over the High Bridge with diesel engines and coaches from the Union Pacific Railroad. A new tradition was established with the Pufferbilly Days Committee honoring the retired C & NW employees. Mr. James Wolfe, president of the C & NW, came to Boone to be grand marshal of the ever growing Pufferbilly Days. Many railroad employees volunteered their time to run the train rides, which were filled to capacity each trip. Pufferbilly Days had another successful year with the flea market expanding to the park on Sunday.

The 1979 celebration was held in early October with the sale of golden spikes to fund the celebration on an ongoing basis originated by the year's co-chairmen. Chairmen Rick LePera and Dennis McFarland extended themselves and their committees and had a successful event, far greater than anyone had expected.

By 1980 the flea market under the expertise of Leonard O'Neil became a major attraction, luring non-Boone residents to Pufferbilly Days. This year the railroad brought in from the National Railroad Museum in Green Bay, Wisconsin the Command Cars used by General Eisenhower in Europe during World War II. The special interest of these cars is the fact that Mamie Eisenhower was born in Boone and visited an uncle, Joel Carlson, here frequently. Her birthplace had been renovated and was entered in the national historical registry by the Boone Historical Society. The birthplace had been dedicated earlier in the year.

Under the guidance of co-chairmen Mel Holthus and George Silberhorn, the parade grew longer, continuous entertainment on the stage, set up on mainstreet, followed through on into street dancing at night. The Sunday program, with "Art in the Park" as its impetus, expanded to be an important segment of Pufferbilly Days attracting many families.

In 1983 the C & NW Railroad raffled off six-course dinners for six winners on their newly acquired "business car." The six lucky winners were chosen by a drawing and the dinners for them and a guest were held the weekend after Pufferbilly Days. Money from the raffle was used by the Chamber of Commerce for the next year's Pufferbilly Days. We now had a real town celebration on our hands, with many eager volunteers anxious to get involved.

Just six years old now the festival developed with surprising speed. All committees set their goals higher than ever. George Maybee announced he had made arrangements for a steam engine, from the Mid-Continent Railway Historical Society in North Freedom, Wisconsin, and rail coaches from the C & NW commuter service in Chicago, to come to Boone and once again provide rides over the newly dedicated Kate Shelley High Bridge and back - about an eight mile trip.

The parade chairman George Eckstein made a coup d'etat this year by obtaining the Iowa State Marching Band to lead off the parade. The 1982 parade was two hours long and the float awards competition was very stiff with many more organizations wishing to get recognition in the now spectacular Pufferbilly Parade. The Beer and Brat Garden was housed for the first time under a gigantic canvas canopy. With so many skilled volunteers running all aspects of Pufferbilly Days, enough profits were generated to give a scholarship to two young people for the Des Moines Area Community College, Boone

Campus, as well as provide funds for this year's celebration.

In 1983 the chairmen Don Reimenschneider and Lennie Bloomquist were happy to announce the Mid-Continent Railway Historical Society and the C & NW Railroad had agreed to bring back the steam engine, "Old 1385," and coaches for the Kate Shelley Express across the High Bridge. George Maybee, who was instrumental in getting the railroad's cooperation and participation in Boone's celebration of its rail heritage, was named grand marshal of the parade. With him a representative of each of the nine local railroad unions (including one national union president) were honored as parade marshalls as a tribute to the many hours of service by railroad employees to Pufferbilly Days.

Wine was added to the "Brat and Beer Garden." Pop and hot dogs will also be sold. An early morning breakfast will be available for early risers and parade participants Saturday.

The Buckskin Rendezvous is expecting its largest turnout this year. The annual 5k and 10k Pufferbilly Run is now in its fourth year and growing. The canoe races will be held on Saturday again - a repeat of a popular event.

Again this year are bus tours of Boone County historical sites, including Mamie Eisenhower's Birthplace. Other new entries are the Pufferbilly Open, an 18 Hole Golf Tournament, and a horseshoe pitching contest.

New also this year is the 11th Street Station, located at 11th and Marshall streets. The station,

a unique railroad museum and shopping mini-mall, is a very historical landmark. Built in 1908, it lives again with lots of nostalgia, and it's many shops are decorated with memorabilia from all eras of railroading. Also on the grounds are several vintage railroad passenger cars including the famous "Kate Shelley" Pullman Parlor Car.

Puppet shows, a magic show, baseball and softball games, the ever popular spelling bee, a pet show, and tennis tournaments are just some of the events scheduled. Pufferbilly Days has something for everyone.

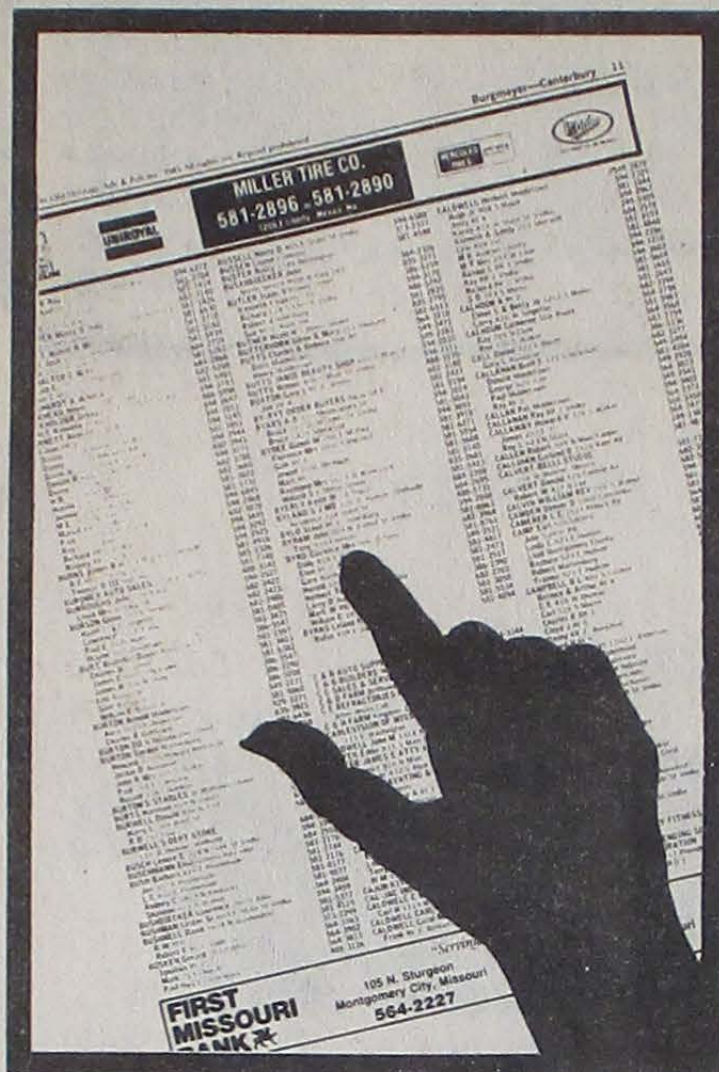

Some may say we have a funny name for our town's celebration, but we think it is the best name we could find for a town that owes its very beginning to the old Pufferbilly engines and the men that ran them. The name may be strange to non-railroad people, but in Boone we are very proud to say it is all ours. Come on home to Pufferbilly Days - you'll love it!

The established dates for Pufferbilly Days have been established as the weekend after Labor Day

# Having trouble finding a phone number?

The following tips will make it easier for you to locate numbers in the white pages of this directory:

- Last names appear once followed alphabetically by individuals with the same last name; the last name is not repeated.

CAMPBELL B L 401 S Coulter -----  
Bernice & Arthur Rt 4 -----  
C E 410 W Monroe -----  
Carl 528 S Morris -----  
Charles R RR 1 -----  
Cloyd J Rt 5 -----  
Danny RR 2 Auxvasse -----  
David H Rt 5 -----

- Initials precede first names: "Smith A" precedes "Smith Albert."
- Numbers are sequenced as if they were spelled out: "1st National Bank", look under "First National Bank".
- A name with a prefix is considered to be one word: "McDonald" follows "Mayer".
- Look for abbreviations as if they were spelled out: "St. Louis", look under "Saint Louis".
- When letters are used as names: Look at the beginning of that particular alpha section.
- "The" usually comes last: "The First State Bank" would be listed as "First State Bank, The".
- Look up government agencies under the city or county name. Federal agencies are listed under "United States".
- The spelling of a name can vary: "Kauffman", "Kaufman", "Kaufmann"; look up all variations.

Save time and money by looking up numbers instead of calling directory assistance.

## DIRECTORY ASSISTANCE

- To call Directory Assistance for numbers within your market service area dial "1411"
- To call Directory Assistance for numbers from other communities with your area code dial "1 + 555-1212."
- To call Directory Assistance for numbers outside of your area code dial "1 + Area Code + 555-1212".
- To call Directory Assistance for "800 service" numbers dial "1 + 800 + 555-1212".

*There may be a charge for calls to Directory Assistance. Telephone company rules in regard to the number of free calls and the charge for calls made above that number may vary.*

## Ways to Save on Directory Assistance Charges

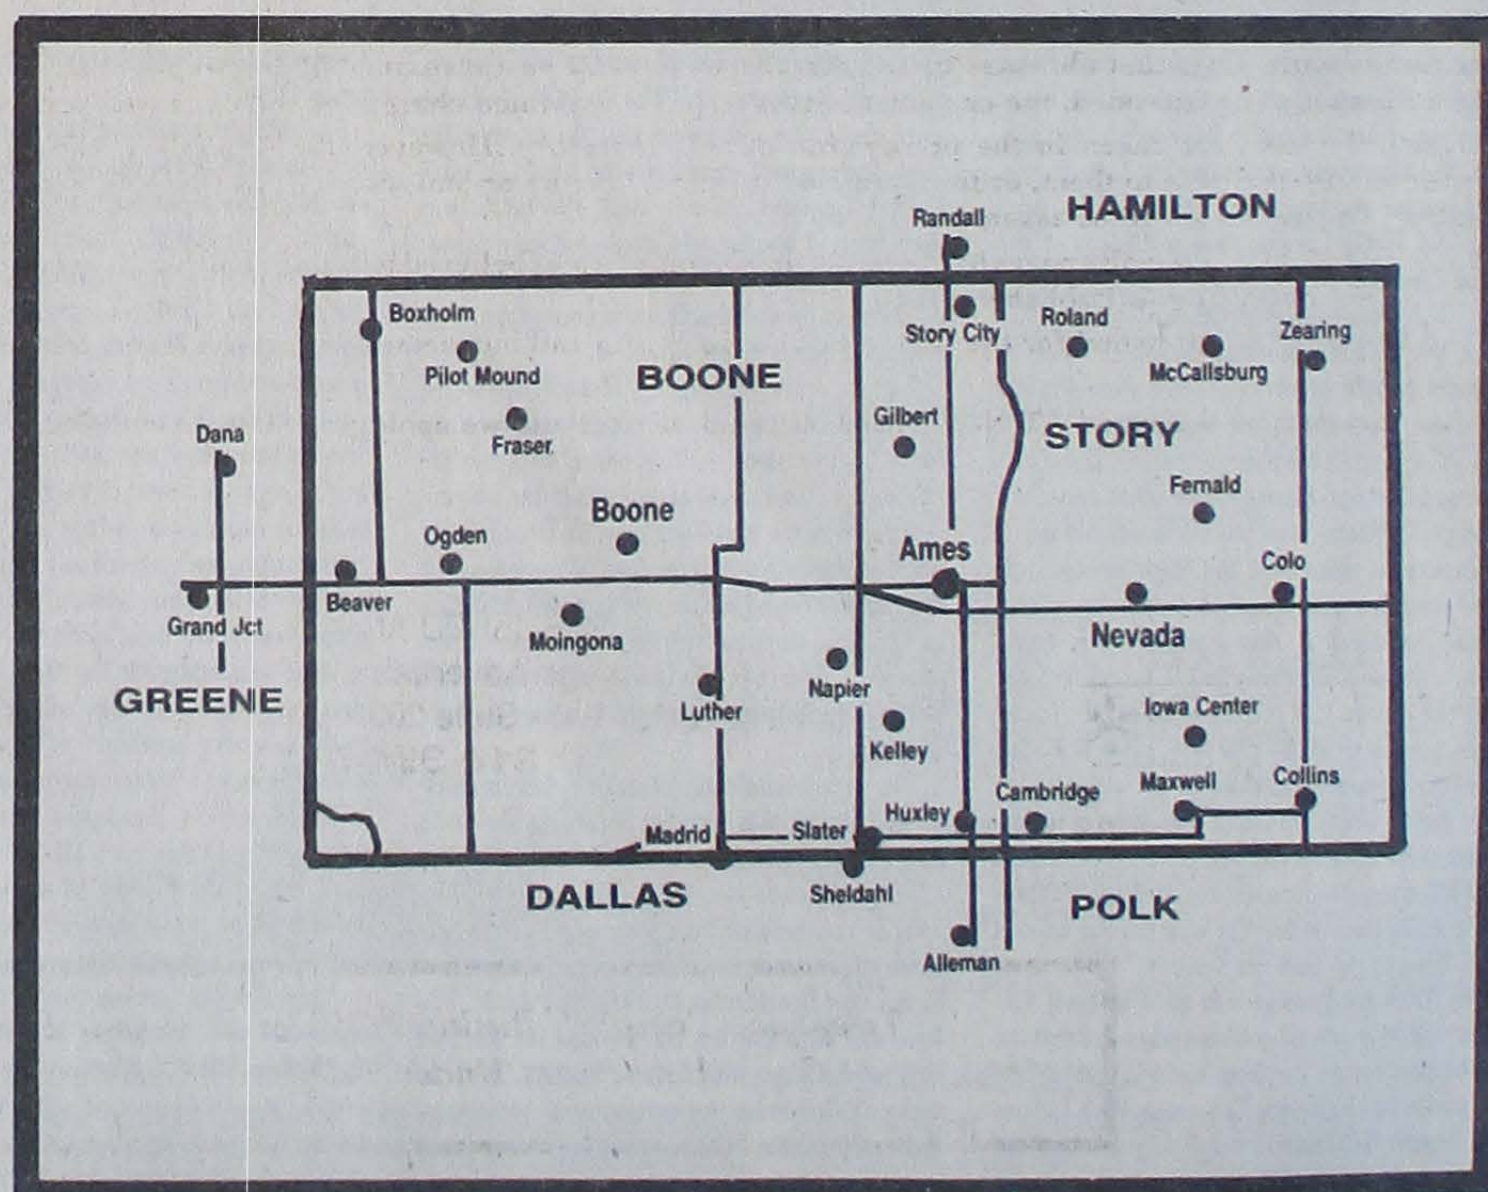

*Because this is an "Area Wide" directory it contains more information covering a greater area than your local telephone company supplied directory. By using this directory you should find most of the numbers of friends and neighbors as well as businesses serving your area.*

## Other Ways To Save on Directory Assistance:

- A new number reference is usually provided for someone who has recently moved. Call the old number and you should get a recorded message with the new number.
- If you need two numbers, ask for both at the same time. Directory Assistance will usually provide, at no charge, a second number.
- You can help the Directory Assistance operator as well, possibly saving a second call if you can provide specific information on the person you need the number for.

*This Telephone Directory contains complete white page residential listings and yellow page business listings for the area shown in the map below.*

*Please refer to the next page for specific town, prefix and area code information for this area.*

# 100% ACCURACY

It takes time and effort to compile white and yellow page listing information, print and distribute this directory. Within that time some phone numbers in this directory have changed due to people and businesses moving in or out of the area and within the area. This is why it is impossible for any telephone directory to be 100% accurate at the time of distribution.

However, the best way for us to find these changes is for you to report them. If you live in the directory coverage area and have moved or changed phone numbers, Old Heritage would like to know.

Please fill out the form on back and mail in

Thank You

# WHY ANOTHER DIRECTORY?

Old Heritage, a Market Area Publisher, produces area wide telephone directories as a convenience for the community. Included in our phone books are complete white and yellow page listings of the home and office numbers you need from your area, not just those numbers serviced by a phone utility company.

If You Have Questions  
Call:  
**314-394-0811**

The area wide book also offers community interest pages, zip code information & money saving coupons.

Next time you need a telephone directory, pick up your area wide book. We offer you more.

## MAKING THE TOUGH DECISIONS

### A budget-management report from United Way

At United Way, volunteers carefully review the budgets, operating patterns and track record of agencies asking to become part of the United Way organization.

They scrutinize the various functions performed by the agency, look at the kinds of people it helps, and evaluate its success in delivering its services.

But what happens when a new service agency wants to become a United Way organization—especially when there may be two or more equally qualified organizations equally in need of United Way support? Who chooses? And on what basis?

The answer to this question is often complex. And sometimes it can be an agonizing decision to admit one agency instead of another.

### The people decide

But the bottom line is that volunteers do make the decisions after carefully weighing all the pros and cons. It's sometimes a hard process, but it's as fair as we know how to make it.

Volunteers work free of charge doing everything from collecting money to deciding how it will be used, so administrative costs are kept low.

And that's how United Way works so well. And why.

**United Way**

Thanks to you, it works.  
For all of us.

## Worship together. Grow together.

"Love one another,  
as I have loved you.  
And care for each other,  
as I have cared for you.  
Bear one another's burdens.  
Share each other's joys.  
And bring each other home."

(Words from the song "Love One Another"  
by Germaine Habjan.  
© 1966 by F.E.L. Publications, Ltd.)

Come together as a family.  
Come together to your  
House of Worship every week.

## HERE ARE THE FACTS

When you're discussing something as important as your future, it's urgent that you get the straight facts... and that you understand them. Air Force ROTC can be an important part of your future. We would like to outline some of the facts and invite you to look into gathering more.

It's a fact: the Air Force needs highly-qualified, dedicated officers... men and women. It's a fact: we need people in all kinds of educational disciplines. It's a fact: we're prepared to offer financial help to those who can qualify for an Air Force ROTC scholarship.

Get together with an AFROTC representative and discuss the program. We'll give you all the facts. It could be one of the most important talks you've ever had with anyone about your educational plans.

RICHARD C. WILLIAMS, Captain, USAF  
AFROTC Detachment 250  
Iowa State University  
131 Armory  
Ames, Iowa 50011-3011 515/294-1716

## DOES SHE DESERVE MORE HELP THAN HE DOES JUST BECAUSE HER DISEASE IS BETTER KNOWN?

United Way supports a wide range of human service agencies — charities we all know but also less well-known organizations which otherwise might not get the needed finances to carry on their good work.

Thanks to you, it works. For all of us.
